

**Unit 5 Part II: Day 23 Homework**

Pg. 271) #12-14, 19-22, 25-27

Tell whether the ordered pair is a solution to the inequality.

12)  $(-1, 3)$

14)  $(0, 0)$

16)  $(2, 1)$

**Graph the inequality in a coordinate plane**

19)  $y \leq 5$

20)  $y > 6$

**Graph the inequality in a coordinate plane**

21)  $x < 2$

22)  $x \geq -3$

25)  $y > -2x - 4$

26)  $y \leq 3x - 1$

27)  $-4x + y < -7$
